

Electromechanics Commitment Construction Ind. Tr. Co. Ltd.

EXCLUSIVE CUSTOMERS ONLY

We are behind the giant projects you follow with admiration.

Our Mission

With its experienced staff, numerous reputable project references and many years of engineering experience, it gathers the professional consultancy services needed by its customers in the fields of architecture, construction mechanics and electrical-electronics under one roof, and offers different service packages for all processes from the idea development stage to the delivery of the building. To serve its customers not only as a consultant but also as a business partner, in the position of an exemplary company that is the leader of the sector today.

Always one step ahead...ETS Elektromekanik develops construction and industrial projects at international standards by combining its brand value of quality, sustainability and reliability with its unique line. It always works to achieve better, with the awareness of the responsibility of having a professional workforce and international experience.

There is a Reason!

Industrial Plant Installations, Mechanical & Electrical Installations, Automation, Steel Construction, Heating-Cooling-Ventilation, Fire Detection & Extinguishing, Steam and Thermo-Oil Systems, Maintenance and Repair Works, etc. We provide turnkey services from project to implementation and commissioning with its expert staff in the fields.

In four continents and fourteen countries, especially Europe and America; Industrial Facilities, Factories, Hospitals, Hotels, Shopping Malls, Sports Complexes, Business Centers, etc. ETS Elektromekanik, provides services in its fields and proud of leaving its mark on the sector. We adopted the principle of working honestly, has become a distinguished name in its sector by adhering to the concept of total quality and carrying out continuous research and development in its field.

Why ETS?

We are different;

We stand behind each of our projects until the end.

Because; specialized teams, qualified workers, quality materials and most importantly knowing the responsibility of our work lies. We are advancing rapidly and confidently in the sector, not only today, but with 48 years of experience and knowledge.

Yeah;

You are making the right decision in choosing us...

Our Activity Areas

- **Mechanical installation**
 - Heating
 - Cooling
 - Ventilation
 - Thermo-Oil and Steam Line Installations
 - Fire Protection Systems
 - Fire Extinguishing
 - Foam Extinguishing
 - Gas Extinguishing
 - Fire Detection and Warning Systems
- **Electric & Electronic**
 - MV Installation
 - LV Installation
 - Weak Current Installation
- **Automation**
 - Mechanical Automation
 - Lighting Automation
- **Insulation**
 - Heating-Cooling and Ventilation Insulation
 - Hot Oil, Steam, etc. Installation Pipe and Tank Insulation
 - Polyurethane Pipe and Tank Insulation (Ammonia and Glycol lines etc.)
 - All Kinds of Heat and Sound Insulation
- **Project and Consulting Services**
- **Annual Maintenance & Repair Works**

EXCELLENCE IN SCIENCE

Project & Consulting

- ❖ Mechanical
- ❖ Electric
- ❖ Automation

Annual Maintenance & Repair

UNSCHEDULED MAINTENANCE METHOD: It is the maintenance done when machinery and equipment malfunctioned.

SCHEDULED MAINTENANCE METHOD: The disadvantages caused by unplanned maintenance have made it necessary to use the planned maintenance method in enterprises. Scheduled maintenance methods can be defined in three groups.

- 1-Periodic Maintenance (Preventive Maintenance)
- 2-Preventive Maintenance (Proactive Maintenance)
- 3-Stimulating Maintenance (Predictive Maintenance)

Mechanical Installation

Heating Installation

Cooling Systems

Ventilation Systems

Fire Detection System

Water Based Fire Protection System

Foam Fire Protection System

Gaseous Fire Protection Systems

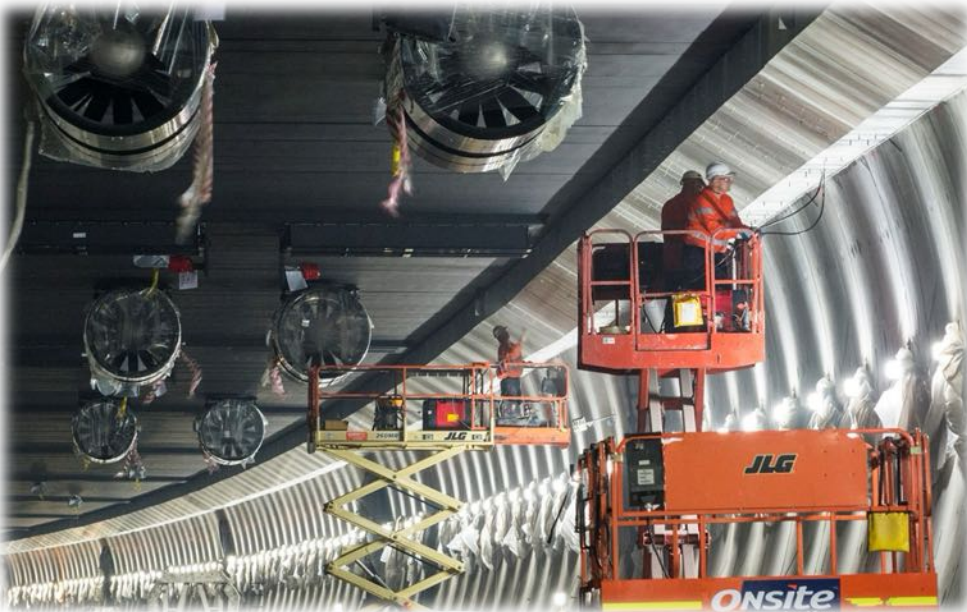

WESP Filters

Dry Electrostatic Filters

Jet Fans

Polyethylene Installations

Automation

Pool Systems

Water Treatment and Softening

Insulation

ELECTRICAL PROJECTS

- ❖ MV Installations
- ❖ LV Installations
- ❖ Weak Current Installations

Uzmanlıklarımız

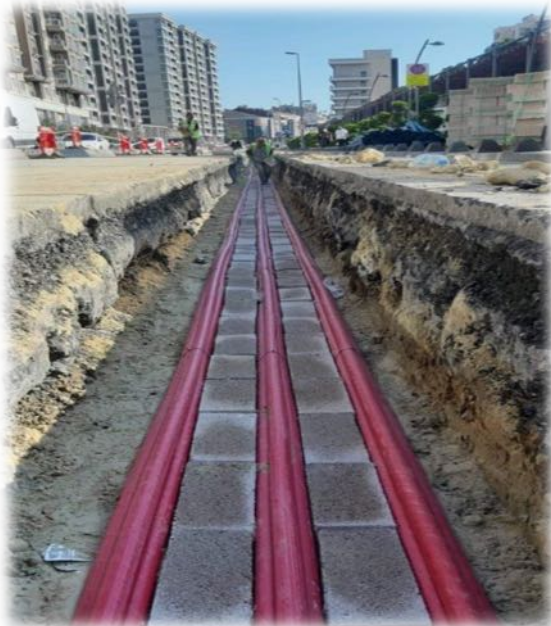

MV INSTALLATIONS

In the field of medium voltage installation, we manufacture all kind of infrastructure at 6.3 kV, 15 kV and 34.5 kV voltage levels.

Tranche, Horizontal Drilling Manufacturing & Overhead Line

- ❖ Excavations
- ❖ Horizontal Drilling
- ❖ XLPE Cable Manufacturing
- ❖ Cobblestone, Warning Tape and Sand Laying

Kiosk (KTP) & Substation

MV Switchgear and Transformer Manufacturing

- ❖ Input Output Cell, Measurement Cell Manufacturing
- ❖ Breaker Cell and Separator Cell Manufacturing
- ❖ Oil Type and Dry Type Transformer Manufacturing
- ❖ OG Scada System

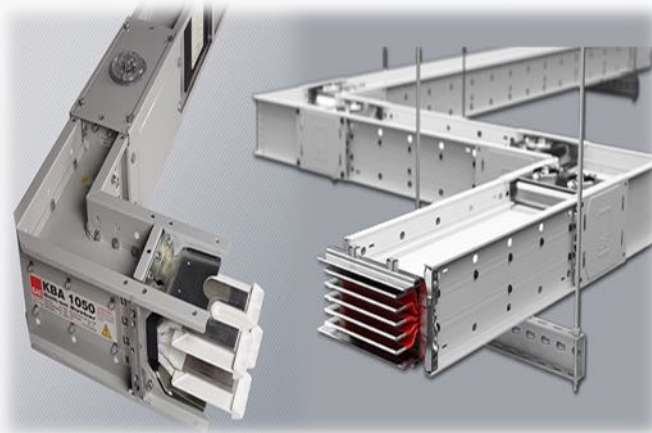

LV INSTALLATIONS

In the field of low voltage installation, we make all productions at 400V, 220V levels.

Panel Manufacturing

Busbar Systems

Pan Production

Generator Installation

Lighting and Socket Installation

Grounding Systems

WEAK CURRENT INSTALLATIONS

Data-Telephone Sys.

CCTV Systems

Voice Alarm Systems

TV Systems

Solar Energy Systems

Card-pass Systems
